

A hand is shown from the top, holding a dark, rectangular metal tray. The tray is tilted, and a stream of small, brilliant-cut diamonds is falling from it. The diamonds are catching the light, creating bright reflections and a sparkling trail as they fall. The background is a dark, solid color, which makes the diamonds stand out. The overall mood is one of luxury and craftsmanship.

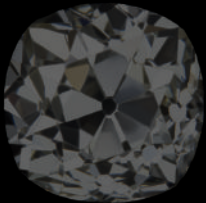

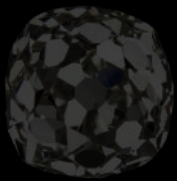

DE GLINT

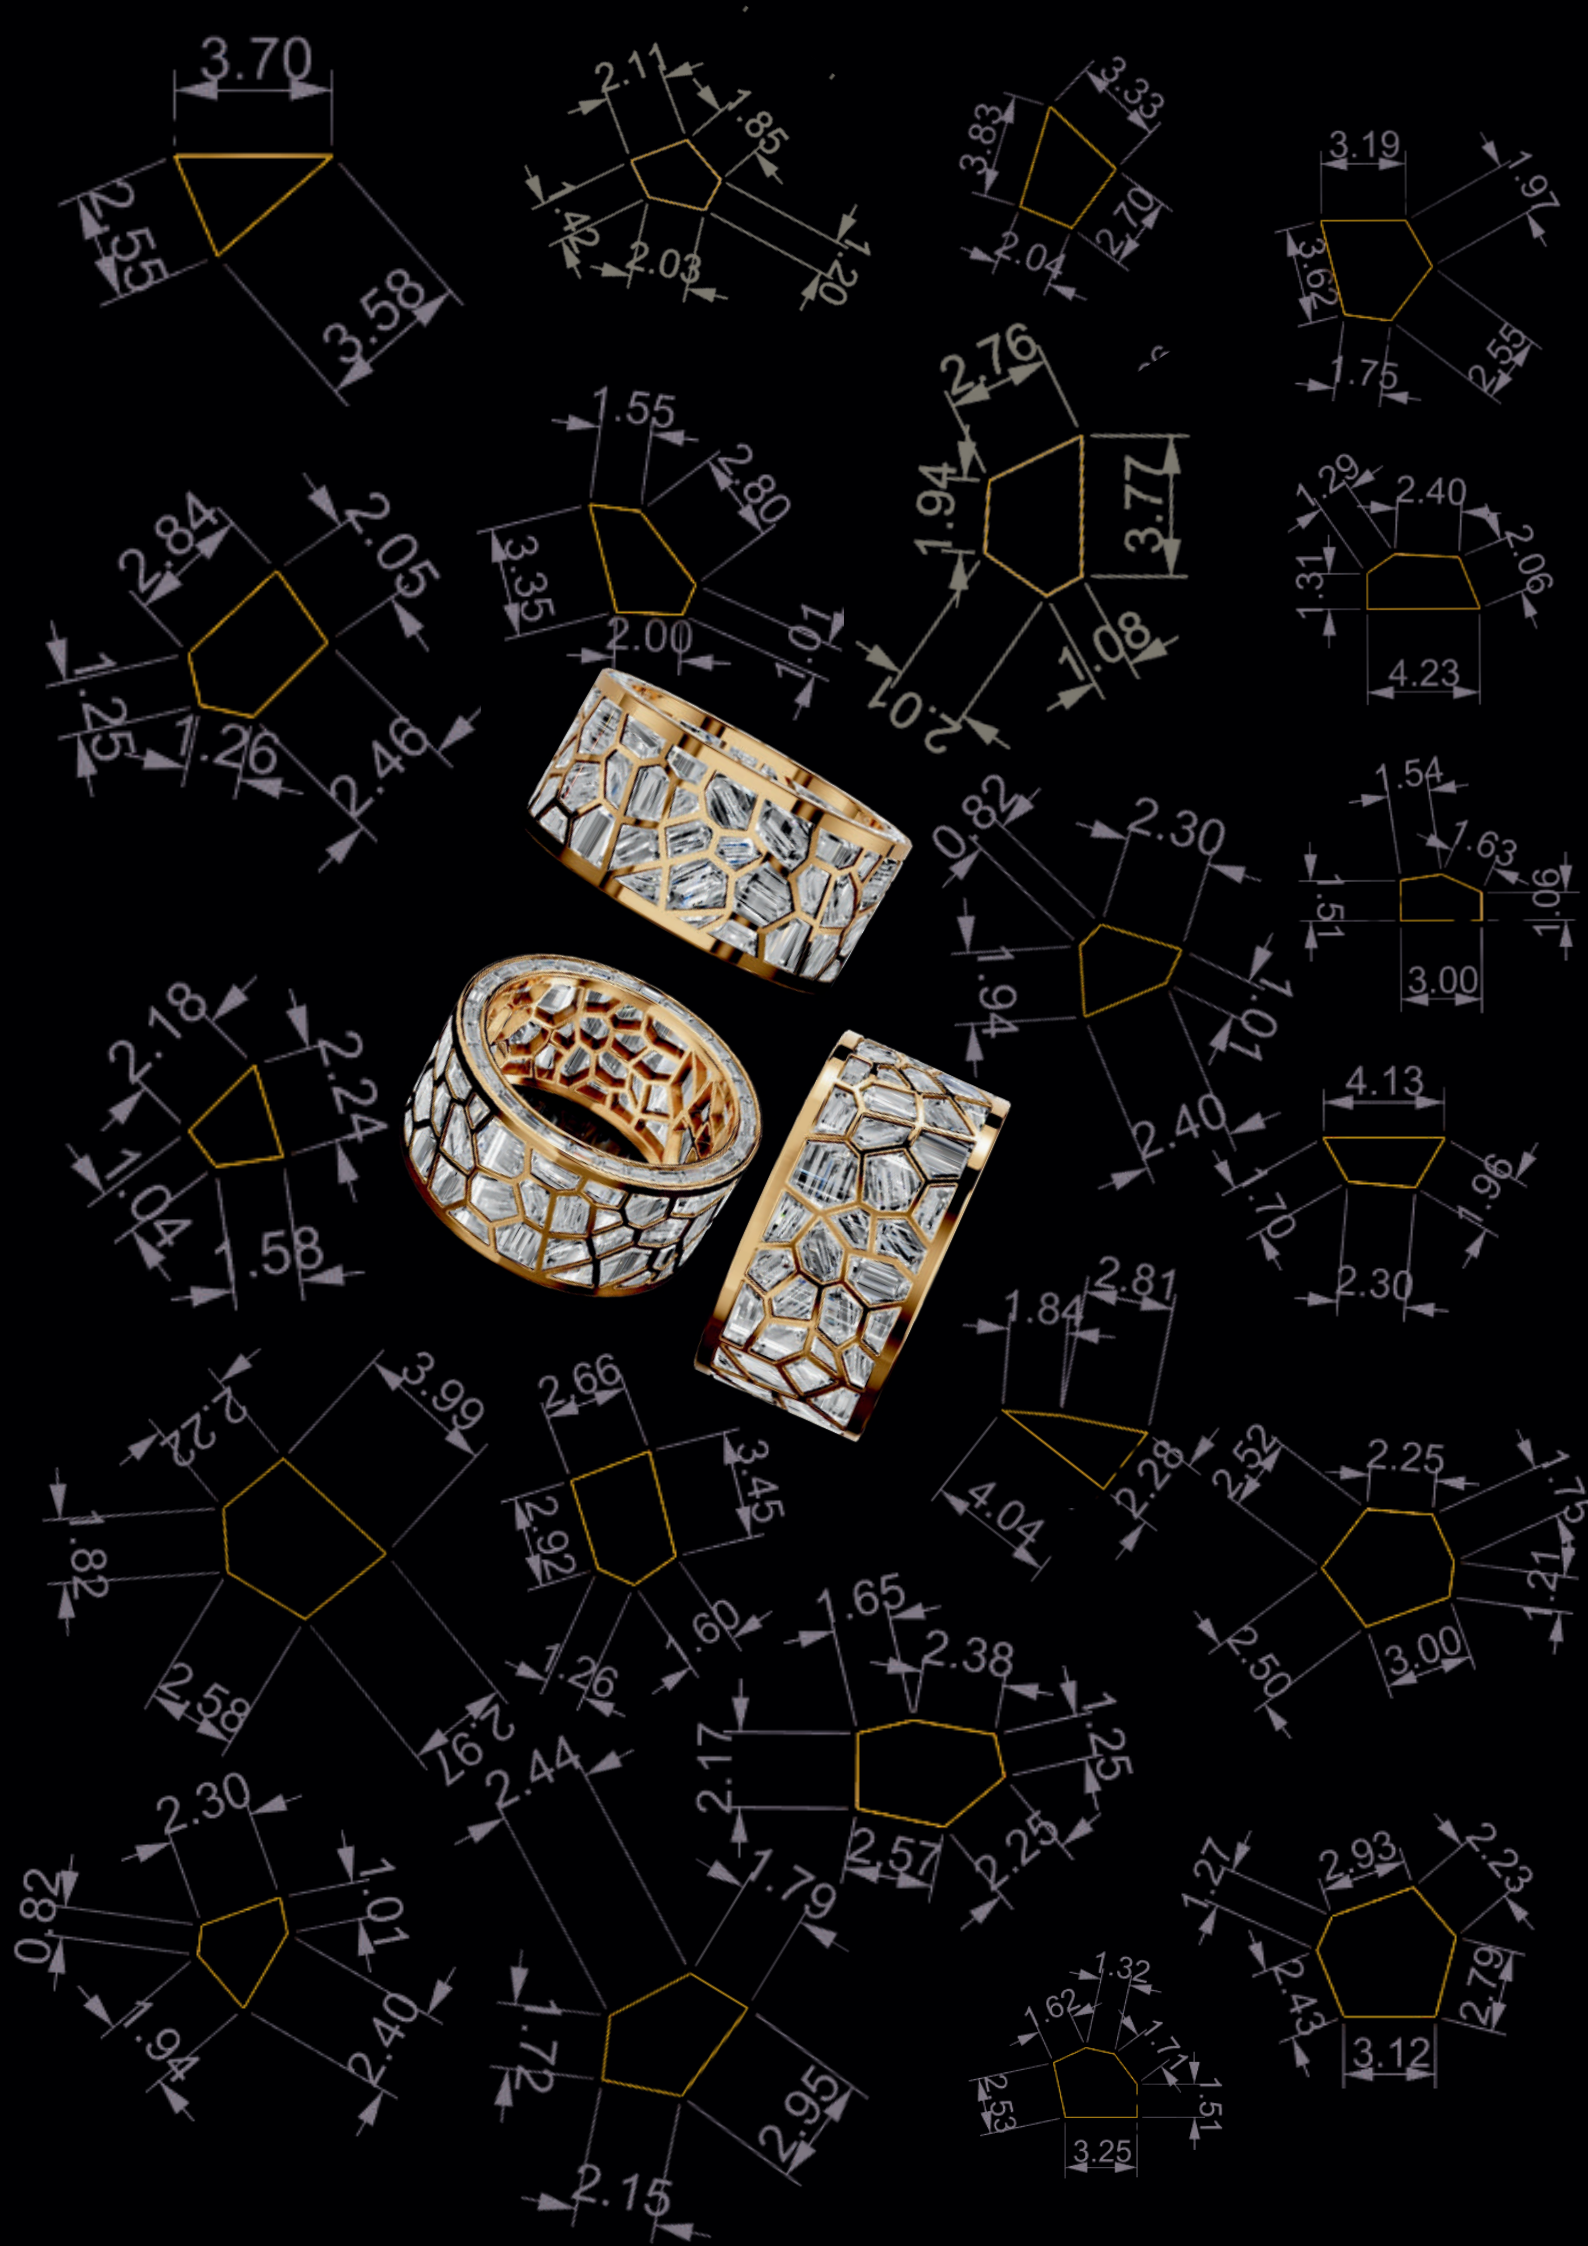

Souls Of Craftmanship

DE GLINT

Over forty years ago, De Glint's roots were planted at a diamond-polishing bench where the Dhameliya family's grandfather honed his craft with patience and **precision**. This legacy was passed to his son, Mr. Bhikhubhai Dhameliya, who mastered diamond **geometry and cutting** to produce exceptional diamonds, establishing a tradition of excellence in **hearts and arrow cut diamonds**. In the late 1980s, he spent countless hours perfecting his craft. Today, his sons, Shekhar and Jenish, lead De Glint, combining advanced technology with traditional expertise. With over **3,000 skilled artisans**, De Glint manages everything in-house, offering clients direct access to quality and transparent service without intermediaries.

Precision

At De Glint, precision is engineered into every diamond we cut. This piece uses highly irregular, custom-shaped diamonds, each calibrated to an accuracy of **±0.025 mm** on every side for a flawless fit and seamless balance. Achieving such precision while preserving maximum brilliance requires advanced planning and cutting expertise. Our **Diamond Calculator technology** evaluates proportions, angles, dimensions, and predicted light performance before cutting begins, allowing us to optimize every stone for brilliance, accuracy, and minimal weight loss. The result is a perfect fusion of technology and craftsmanship—diamonds engineered to fit precisely, perform beautifully, and transform complex designs into exceptional jewellery.

WHY DE GLINT?

COMPANY XYZ

Services	+2.5 - 3
Diameters by mm	1.3 - 1.35
No. of Pieces / CT	100
Total weight	1.01 Carat
Color	DEF
Clarity	VVS
Brilliance	Fair
Symmetry	Fair
Luster	Fair
Price per Carat	\$500
Total Bill	\$505

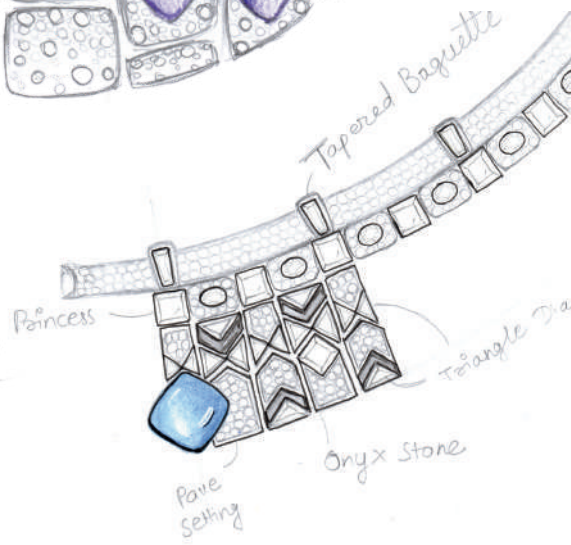

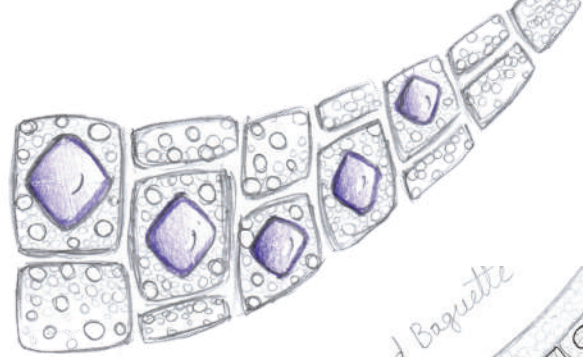

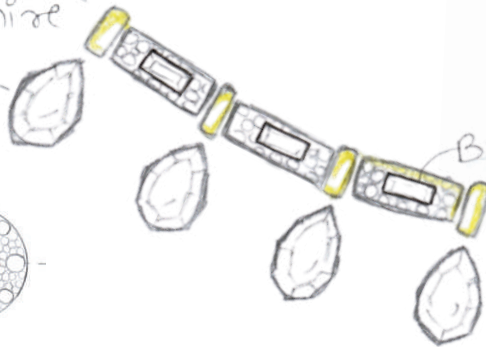

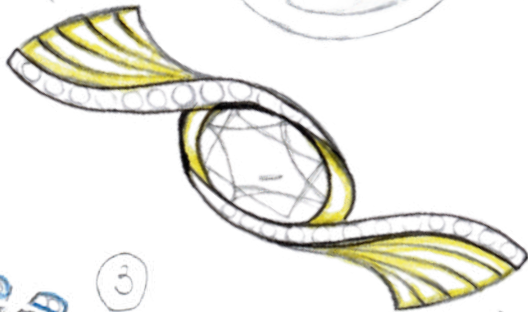

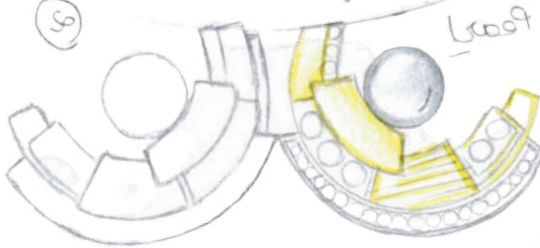

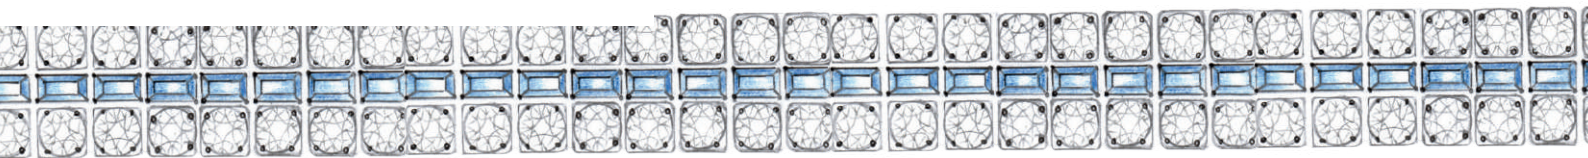

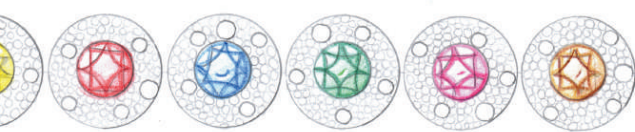

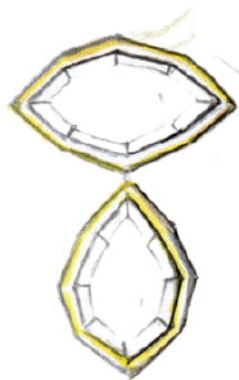

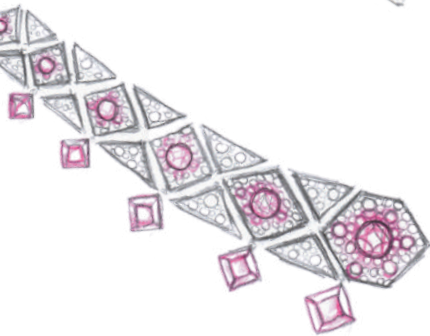

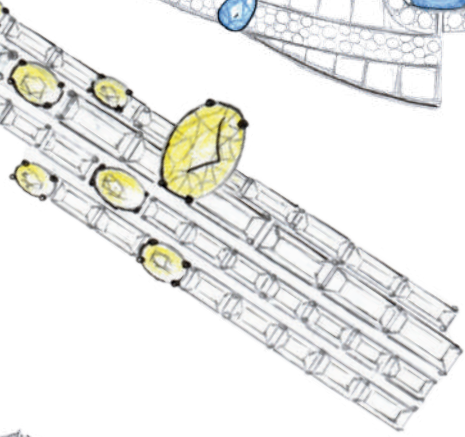

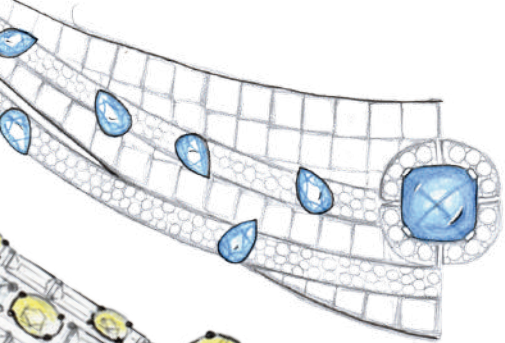

DE GLINT

Services	+2.5 - 3
Diameters by mm	1.3 - 1.35
No. of Pieces / CT	100
Total weight	0.95 Carat
Color	DEF
Clarity	VVS
Brilliance	Excellent
Symmetry	Excellent
Luster	Excellent
Price per Carat	\$525
Total Bill	\$498
